Plant and Soil

Contents of Volume 120 1989

Volume 120, No. 1

W. L. Pan, A. G. Hopkins and W. A. Jackson, Aluminum inhibition of shoot lateral branches of *Glycine max* and reversal by exogenous cytokinin 1
J. Wolf, C. T. de Wit and H. van Keulen, Modeling long-term crop response to fertilizer and soil nitrogen. I. Model description and application 11
J. Wolf and H. van Keulen, Modeling long-term crop response to fertilizer and soil nitrogen. II. Comparison with field results 23
T. Magnusson, A method for equilibration chamber sampling and gas chromatographic analysis of the soil atmosphere 39
C. Kirda, S. K. A. Danso and F. Zapata, Temporal water stress effects on nodulation, nitrogen accumulation and growth of soybean 49
P. Kutiel and A. Shaviv, Effect of simulated forest fire on the availability of N and P in mediterranean soils 57
D. Levanon and I. Levin, Yield response and nitrate accumulation in Rhodes grass (*Chloris gayana* Kunth) grown in high-nitrate-content solutions 65
D. Gillon and M. Rapp, Nutrient losses during a winter low-intensity prescribed fire in a Mediterranean forest 69
S. D. Wullschleger and D. M. Oosterhuis, Water use efficiency as a function of leaf age and position within the cotton canopy 79
S. Thakur and K. Zachariah, Response of the fungus *Dactylella rhopalota* to bacteria 87
C. C. Young, L. R. Zhu Thorne and G. R. Waller, Phytotoxic potential of soils and wheat straw in rice rotation cropping systems of subtropical Taiwan 95
M. van Meirvenne and G. Hofman, Spatial variability of soil nitrate nitrogen after potatoes and its change during winter 103
A. Suwanarit and M. Sestapukdee, Stimulating effects of foliar K-fertilizer applied at the appropriate stage of development of maize: A new way to increase yield and improve quality 111
H. H. Janzen and G. D. Radder, Nitrogen mineralization in a green manure-amended soil as influenced by cropping history and subsequent crop 125
R. J. Goenaga, R. J. Volk and R. C. Long, Uptake of nitrogen by flue-cured tobacco during maturation and senescence. I. Partitioning of nitrogen derived from soil and fertilizer sources 133
R. J. Goenaga, R. C. Long and R. J. Volk, Uptake of nitrogen by flue-cured tobacco during maturation and senescence. II. Partitioning and remobilization of reduced-N fractions 141

Short communication

M. R. Carter and H. W. Johnston, Association of soil macroporosity and relative saturation with root rot severity of spring cereals 149

Volume 120, No. 2

C. Robin, L. Shamsun-Noor and A. Guckert, Effect of potassium on the tolerance to PEG-induced water stress of two white clover varieties (*Trifolium repens* L.) 153
S.H. Chien and L.L. Hammond, Agronomic effectiveness of partially acidulated phosphate rock as influenced by soil phosphorus-fixing capacity 159
M. Kondo, M. Kobayashi and E. Takahashi, Effect of phosphorus on Azolla and its utilization in rice culture in Niger 165
P.A.A. Pereira, R.H. Burris and F.A. Bliss, ^{15}N-determined dinitrogen fixation potential of genetically diverse bean lines (*Phaseolus vulgaris* L.) 171
H.M. Salih, A.I. Yahya, A.M. Abdul-Rahem and B.H. Munam, Availability of phosphorus in a calcareous soil treated with rock phosphate or superphosphate as affected by phosphate-dissolving fungi 181
P.A. Rosbrook, A.J.P. Burggraaf and P. Reddell, A comparison of two methods and different media for isolating *Frankia* from Casuarina root nodules 187
P.J. Lafontaine, C. Lafrenière and H. Antoun, Some properties of carbohydrate and C_4-dicarboxylic acid utilization negative mutants of *Rhizobium leguminosarum* biovar *phaseoli* strain P121 195
J. Bogemans, L. Neirinckx and J.M. Stassart, Effect of deicing NaCl and $CaCl_2$ on spruce (*Picea abies* (L.) sp.) 203
W.H. van der Putten, J.T. van der Werf-Klein Breteler and C. van Dijk, Colonization of the root zone of *Ammophila arenaria* by harmful soil organisms 213
H.T. Mun and W.G. Whitford, Effects of nitrogen amendment on annual plants in the Chihuahuan Desert 225
P.S. John, R.J. Buresh, R.K. Pandey, R. Prasad and T.T. Chua, Nitrogen-15 balances for urea and neem coated urea applied to lowland rice following two cowpea cropping systems 233
J.F. Soussana, A. Gojon, L. Passama, R. Wakrim and P. Robin, Critical evaluation of the *in situ* nitrate reductase assay 243
Th. Pape, N. van Breemen and H. van Oeveren, Calcium cycling in an oak-birch woodland on soils of varying $CaCO_3$ content 253
P.S. Nobel and J.A. Palta, Soil O_2 and CO_2 effects on root respiration of cacti 263
K.D. Ritchey, D.M.G. Sousa and G.Costa Rodrigues, Inexpensive biological tests for soil calcium deficiency and aluminum toxicity 273
S. Fontaine, B. Delvaux, J.E. Dufey and A.J. Herbillon, Potassium exchange behaviour in Carribean volcanic ash soils under banana cultivation 283
A. Weber, M.-L. Sarsa and V. Sundman, *Frankia-Alnus incana* symbiosis: Effect of endophyte on nitrogen fixation and biomass production 291

Short communications

M.J. Sánchez Blanco, A. Torrecillas, A. León and F. del Amor, The effect of different irrigation treatments on yield and quality of Verna lemon 299
W. Kaewruang, K. Sivasithamparam and G.E. Hardy, Effect of solarization of soil within plastic bags on root rot of gerbera (*Gerbera jamesonii* L.) 303
F.A. Dawood, Effect of high rates of sulphur on the $CaCO_3$ and $CaSO_4$ content of calcareous soils 307
